Results - elements[1].Text:
File1: An advance directive is a document that allows a principal to select someone else to make health care decisions if they are not able to for themselves. In addition, it will enable a principal to choose their end-of-life treatment options on whether to prolong their life. Depending on State law, this document must be signed in the presence of a notary public and/or two (2) witnesses.
File2: Automation QA Engineer (C#)
